

Who to See: Primerica

...online you'll have your own personalized debt elimination program, similar to the step-up program. The *ENRICH* program is far superior to anything else in that it'll actually get you from: *I should* and *I might* to *I will* and *I did it!* A Primerica representative will actually set up the entire program with you. From adding your accounts and credit cards to the links for automatic bill payments – you'll never be alone, stuck, or overwhelmed.

The second critical feature is that your program is on auto-pilot. Your biggest obstacle of getting from hoping and wishing to reaching your debt freedom is often the discipline and work that's required. No more! This program is entirely automated. It requires only one click for you to track your progress, pay down your debts, check your balances, access your investments, and watch your net worth grow.

The entire financial industry has billions of dollars at stake to keep you naïve, uninformed, and powerless. This Primerica program will change that, and be instrumental in restoring America to financial success one family at a time – starting with you.

It's rare and refreshing to find companies who practice putting their clients first. What a perfect ending to this book – or maybe a perfect beginning for you to have the help and resources to take back financial control, restore your credit, and reach your debt freedom.
